

1. Develop the initial housing need  
Develop the Housing Design

Then  
add the preliminary housing  
design factors to produce the  
preliminary 'Housing Spec.'

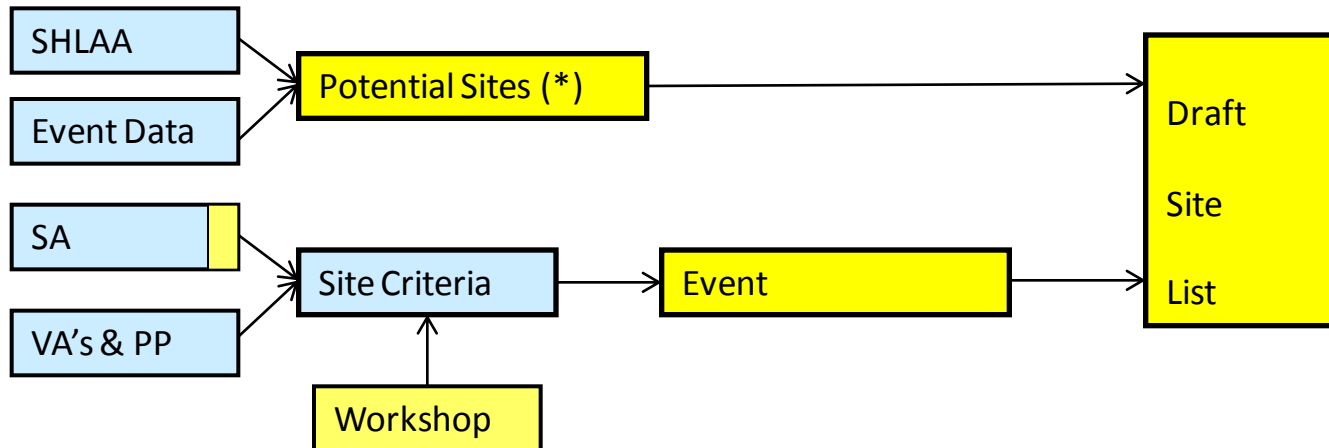

Status

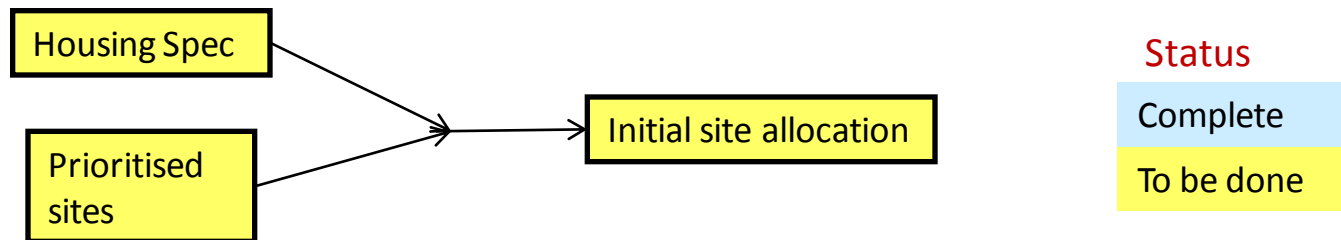

Complete

To be done

- Complete the initial housing sites and the site selection criteria. Then apply criteria to Potential sites to give an Draft Site List.

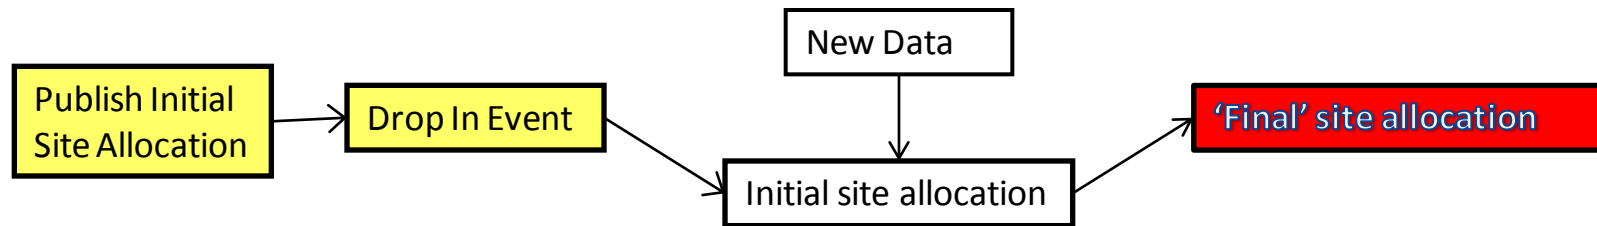

- Then do initial matching of housing spec to Draft site list.

\* - Includes initial conversation with Landowner re: Availability & Possibilities

## 4. Publish Initial Site Allocation for Village consultation

## 5. Finally...

Refine initial site allocation as new data comes in.

New Data from:

- Workshops – used to dig deeper into grey or uncertain areas
- SODC – the Core Strategy
- Census
- The Housing Needs survey
